Street Terms: Drugs and the Drug Trade

The ability to understand current drug-related street terms is an invaluable tool for law enforcement, public health, and other criminal justice professionals who work with the public. This document contains over 2,300 street terms that refer to specific drug types or drug activity.

All terms are cross-referenced where possible. A single term or similar terms may refer to various drugs or have different meanings, reflecting geographic and demographic variations in slang. All known meanings and spellings are included. No attempt was made to determine which usage is most frequent or widespread. Different definitions for a single term are separated by semi-colons (;). The use of commas (,) and the connective "and" indicates that the term refers to the use of the specified drugs in combination.

For source information, please contact the ONDCP Drug Policy Information Clearinghouse at 1-800-666-3332.

Alphabetical Listing
